DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Specification

2. The abstract of the disclosure is objected to because the phrase “is provided” should be deleted from the first sentence of the abstract; i.e., the first sentence should be read as “A method for verification of the identity of a patient to which a medical treatment is to be delivered.”

Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

3. Claims 1-9 are allowed.
4. The following is an examiner’s statement of reasons for allowance:

The record of prior art fails to teach the step of generating a characteristic audio signal, previously assigned to the patient and stored by the system, in response to the entering of the patient identifier when there is a match between the entered patient identifier and a stored identifier for the patient stored by the system.

Gombrich et al. (US 4,857,716 and US 4,835,372) teaches a method and system for patient identification for relating items with patients and ensuring that an identified item corresponds to an identified patient. The identification system includes a computer system, a portable barcode reading device, an LCD display and a keypad, wherein the bar code reading device is utilized to read a patient’s unique bar codes on a patient’s identification bracelet, or bar codes on labels attached to various items in the hospital relating the item to a specific patient, whereby such items can be automatically correlated to a specific patient and ensure that the item properly corresponds to the identified patient. However, Gombrich et al fails to specifically

teach the step of generating a characteristic audio signal, previously assigned to the patient and stored by the system, in response to the entering of the patient identifier when there is a match between the entered patient identifier and a stored identifier for the patient stored by the system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
